W I T N E S S E T H

Whereas, the Customer desires to purchase water from the District and to enter into a Customers agreement as required by the Bylaws of the District.

NOW THEREFORE, in consideration of the mutual covenants, promises, and agreements herein contained, it is hereby understood and agreed by the parties hereto as follows:

The District shall furnish, subject to the limitation set out in its Bylaws and Rules and Regulations now in force or as hereafter amended, such quantity of water as Customer may desire in connection with Customer's occupancy of the following described property:

1. Legal property address (Physical Address):

The District shall install at the District's expense a water meter, a cutoff valve and a service line which shall begin at the water main line and extend to the property line. The District shall have exclusive right to use such cutoff valve and water meter. The service line shall connect with the water main line of the District at the nearest place of desired use by the Customer, provided the District has determined in advance that the system has sufficient capacity to permit delivery of water at that point.

The Customer agrees to grant to the District, its successors and assigns, a perpetual easement in, over, under and upon the above-described land, with the right to erect, construct, install, and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines and appurtenant facilities, together with the right to utilize adjoining lands belonging to the Customer for the purpose of ingress to and egress from the above-described lands.

In the event the total water supply shall be insufficient to meet all of the needs of the Customers, or in the event there is a shortage of water, the District may prorate the water available among the various Customers on such basis as is deemed equitable by the Board of Directors, and may also prescribe a schedule of hours covering use of water for garden purposes by particular Customers and require adherence thereto or prohibit the use of water for garden purposes; provided that, if at any time the total water supply shall be insufficient to meet all of the needs of all the Customers, the District must first satisfy all of the needs of all Customers for domestic purposes before supplying any water for livestock purposes and must satisfy all the needs of all Customers for both domestic and livestock purposes before supplying any water for garden purposes.

The Customer agrees that no other present or future source of water will be connected to any water lines served by the District's waterlines and will disconnect from the present water supply prior to connecting to and switching to the District's system and shall eliminate their present or future cross-connections in the Customer's system.

Water payments are due on the 1st of each month. The failure of a Customer to pay water charges duly imposed shall result in the automatic imposition of the following penalties:

1. Nonpayment within ten (10) days from the due date will be subject to a penalty of ten (20%) percent of the delinquent account.
2. Nonpayment within twenty (20) days will result in a \$25.00 Delinquent fee, which will be applied at the close of business on 20th of each month.
